

XO STAIRWAY

In the engineering and construction business, XO Towers movable aluminium towers are lightweight scaffold towers used for both indoor & outdoor access solutions when a solid and safe platform is required for repeated climbing. They are perfect for installation and maintenance work, and the highly adaptable towers offer a stable working platform at a range of heights.

FEATURES:

- ✔ Stairways enhances Productivity, Safety & allows quick and regular manpower movement.
- ✔ Highly reflective yellow FRP stairs make climbing methodology very easy to understand & use, especially improving safety during night work.
- ✔ In order to maintain 3T contact & boost safety, handrails are mandatory on our designed stairways.
- ✔ Excellent worker balance & mobility of small tools is possible.
